

EC-SORB® SC

RF Absorbing Screen

Product Overview

- Portable freestanding RF absorber screen incorporating EC-SORB absorbers
- Ideal for creating temporary RF measurement environments
- Effective for suppressing unwanted reflections and shielding reflective objects

Typical Applications

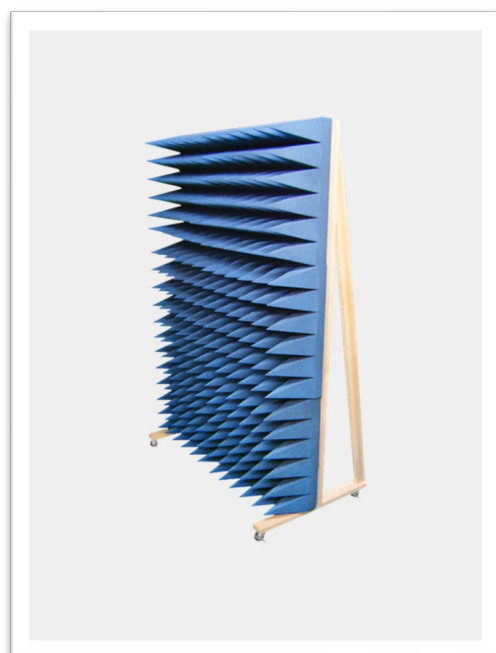

- Suppression of unwanted reflections from walls and surrounding structures
- Shielding reflective objects in anechoic chambers
- Antenna and microwave measurements
- Temporary RF measurement environments

Construction & Features

- Incorporates EC-SORB VHP or EC-SORB CV absorbers
- Freestanding, portable construction
- Wooden frame construction
- Choice of absorber type to suit application requirements
- RF absorption performance depends on the absorber type used

Dimensions & Specifications

- Standard size: 1,220 × 1,830 mm
- Custom sizes available
- Available with EC-SORB absorbers other than VHP and CV

EC-SORB SC-VHP
